

Hosted Microsoft[®] Exchange Server Services

Set Yourself Free

For just a few dollars a day you can seamlessly access and synchronize all your mailbox data, including contacts and calendar, across a variety of platforms and mobile devices.

Total Mobility

If you typically use Microsoft Outlook while in the office, a BlackBerry or Treo handheld while on the road, and Outlook Web Access from home, you can sync them all together. And that's without ever worrying about missed e-mails, contacts or appointments.

Improved Productivity

Hosted Microsoft Exchange Server 2007, offers all the features and functionality of the popular application in addition to an intuitive collaboration capability for improved productivity with anywhere, anytime access.

Complete Mobile Access:

- **Work anytime, anywhere** — Get full access to all your e-mail folders, contacts, calendar and files from any Microsoft Outlook or browser.
- **Keep up to date** — Changes made to your e-mails, contacts, calendar and files are automatically updated when accessed via any other medium.
- **Mobile access** — Carry your contacts, calendar, notes and task list on the road in your PDA, whether it's a BlackBerry, Compaq, Dell, Handspring or Palm, etc.
- **Work offline** — Exchange e-mail, change contacts, schedule meetings and modify files from public folders while disconnected from the internet or offsite. Outlook keeps an offline copy of it all, and all offline-mode changes are synchronized.

Save Money:

- Save thousands of dollars by not having to purchase licenses for Microsoft Exchange Server 2007.
- Eliminate the need to purchase backup software and tapes, or antivirus software.
- Software updates are handled automatically on the servers, at no charge to you.

Maintain Data Security:

- Be secure with an enterprise-managed firewall, which includes packet inspection and intrusion detection.
- Be protected by automatic virus checks on all inbound and outbound e-mails and their attachments.
- Be confident that your valuable company data is in a secure data center, one also is used by the NYSE.
- Be sheltered because data is backed up daily — no more data loss.
- Be safe, knowing we keep up with the latest security holes used by hackers; your data is always secure.

BlackBerry Enterprise Server:

- Two-way wireless synchronization
- Anytime, anywhere access to all your e-mail folders, files, contacts and calendar
- View attachments directly from a handheld device

Efficient Messaging Server

- Complete, real-time wireless synchronization, without the use of a cradle
- Wirelessly synchronize your e-mail, calendar, contacts, notes, tasks, public folders, access to your Global Address List (GAL)
- End-to-end security via Triple-DES and AES encryption
- Constantly updated so your information is always up to date

TECHNOLOGIES

We do IT right

Increase Your Productivity:

- Be set free with generous disk space ranging from 2 GB and up per mailbox
- Collaborate easily and securely with co-workers, customers and suppliers
- Schedule meetings with your co-workers
- Share files, e-mails, contacts and calendars across the company
- Edit, add and delete appointments on other users' calendars
- Eliminate scheduling conflicts for resources such as meeting rooms, equipment, etc.
- Filter unwanted messages before they get to your mailbox with spam software (client and server-side)

Basic Fees

Mailbox Setup Fee	\$25/mailbox (one time per New User)
2 GB Exchange Mailbox	\$15/month per Mailbox
5 GB Exchange mailbox	\$25/month per Mailbox
10 GB Exchange Mailbox	\$45/month Per Mailbox

Total Space is calculated by adding up all the mailboxes and comparing the aggregate space purchased against the aggregate utilized space. Mailbox sizes can be changed at any time with any combination of sizes

All mailboxes include MAPI (Outlook/Entourage), OWA (Webmail) and Active Sync (iPhone, Windows Mobile, Palm Treo) access as well as a free copy of Outlook 2007/Entourage 2004, Antivirus/AntiSpam Scanning, Backup/Disaster Recovery and with 99.9% Uptime (< 9 hours downtime a year)

Additional Services

- Additional Email Domains: \$3/month per Domain
- Additional 100 MB: \$5/month
- Blackberry Enterprise Server: \$15/User/Month (\$45 Setup Fee)
- Good Messaging Server: \$25/User/Month (\$45 Setup Fee)
- Bloomberg Service for Blackberry: \$15/User/Month (\$45 Setup Fee)

AntiVirus

Anti-Virus and Anti-SPAM Solutions – Viruses, worms and the impact of spam can all have significant and catastrophic impacts on not only e-mail data, but also a company's entire information technology system. We use core Microsoft Exchange anti-SPAM capabilities and both Trend Microsystems and Symantec anti-virus, with virus definitions updated every hour. Every message is scanned for viruses both inbound and outbound, and the servers and stored documents are also scanned.

Backup and Disaster Recovery

All of our customers' data is backed up incrementally every night and completely every week. Nightly (Incremental) backups are maintained for one week and weekly and monthly (Full) backups are maintained and archived off-site for up to a year.

Data Privacy

Every customer's data source is protected from outside access through a robust security, intrusion detection and firewall solution. Every customer's data is logically segregated and protected from other customers to prevent inappropriate data access.

Why a hosted Exchange Solution?

Today, messaging solutions, including e-mail, are a critical component of business. Loss of communications and messaging capability can translate to lost revenue, lost customers, and inability to perform work, and, at a minimum, idle and unproductive employees. E-mail is never free, because the cost of downtime for a 'good enough' solution can be crippling.

Further, our business-class messaging solution offers far more than just e-mail. It includes:

- Contact lists that all employees can view, share and edit, regardless of location.
 - The ability for employees to schedule meetings, events and resources by viewing every other employee's current schedules and commitments.
 - Shared folders and document repositories that all employees can access regardless of location.
 - BlackBerry and Microsoft ActiveSync mobile solutions that enable employees to access mail, calendars, contacts and tasks wherever they are.
 - Advanced anti-SPAM and anti-Virus protection to eliminate the annoyance of unwanted e-mails and the risk of downtime.
 - Comprehensive archiving and backup solutions to protect critical business e-mails, contacts and data.
- So while business-class messaging does cost \$15 per user, per month, the value in terms of employee productivity, efficiency and effectiveness far outweighs the predictable monthly cost.
